To Whom It May Concern:

I am responsible for customer relationships at Anchors Unlimited, Inc. We have conducted business providing parts and service for Swade Welding and Wade Hampton II for the past two years. Wade is an important customer for us and has consistently kept his accounts current. We have done about \$20,000 a year with him.

I believe Wade Hampton would continue to be reliable and dependable and would be successful in whatever professional situation he would pursue.

Sincerely,
