To Whom It May Concern:

MM Marra Construction, Inc. has used the services of Wade Hampton and Swade Welding since 2005. He does an excellent job for us and we have never had a problem with his work. He always is there when we schedule him and working overtime is never a problem.

The most recent project we used Wade on was the Liberty Ave Medical Building in Bloomfield, a 4 storey steel frame medical office building where Wade did all the required welding.

We will continue to use Wade and his company on all our future projects. We recommend him highly.

Sincerely,

Marty M. Marra
President
